## Education

(Aug 2022)  
**Bachelor Of Software Engineering,**  
*Graduated from Capital University of Science and Technology*  
– Islamabad, Pakistan

## Key Skills

Kotlin Programming

Java Programming

Internet of Things

Python Programming

.NET Framework

Software Quality Assurance

## Summary

Passionate and detail-oriented Android Developer with 2 years of hands-on experience in building, enhancing, and maintaining mobile applications using Kotlin. I excel in various facets of Android development, from crafting intuitive UI/UX designs to integrating third-party services, managing databases, and optimizing app performance. I thrive in team environments and enjoy working closely with others to create top-notch software solutions.

## Achievements

### CESHA- Final Year Project

- Smart Home Automation and Electricity Bill Calculation, in which me and my group members developed an IOT based mobile app.
- The app is able to calculate the electricity consumed by the appliance.
- The app can manage the rooms list, appliance list and disconnect/remove the certain appliance from specific room.
- The app can notify, when a specific appliance has used power more than the threshold limit.
