## PROFILE

A creative and meticulous Design student with a passion for blending aesthetics with functionality to create meaningful and impactful visual solutions. Skilled in Graphic Design and UI/UX design, with extensive hands-on experience in Adobe Creative Suite and Figma. Love taking up challenges that allows to push the boundaries of creativity . Currently pursuing, Visual Communication Design (2nd year), I'm eager to contribute creativity and collaboration to Samsung Gulf Electronics while developing technical and interpersonal skills.

## DESIGN PROJECTS

University of Wollongong, Dubai

Year 2

### MediMate Mobile App

- *Software used - Figma*
- [Project Link](#)
- Designed a user-friendly mobile app interface using Figma, focusing on UI/UX principles to enhance accessibility and engagement. Developed a design system with a calming color palette, tailored for health apps to provide a seamless experience on devices like Samsung Galaxy smartphones.

University of Wollongong, Dubai

Year 2

### Cultural Poster

- *Software used - Adobe Illustrator*
- [Project Link](#)
- Designed a vibrant cultural poster titled "My Incredible India", depicting Indian festivals, emphasizing typography skills to create a visually striking and cohesive representation of cultural diversity

University of Wollongong, Dubai

Year 2

### Monogram Design

- *Software used - Adobe Illustrator*
- [Project Link](#)
- Created a custom logo of my initials (M.N.), applying vector design techniques, typography adjustments, and color theory to craft a minimalist, professional identity that reflects creativity and attention to branding detail.

University of Wollongong, Dubai

Year 2

### **Magazine Spread Design – Playfair Display**

- *Software used – Adobe InDesign*
- [Project Link](#)
- Designed a magazine spread using Adobe InDesign, selecting Playfair Display for its elegant, serif style, and integrating it into a cohesive layout to highlight content with sophistication and visual harmony.
