EDUCATION

WeThinkCode_

Software Engineering
2023 - 2024

Nelson Mandela University

Information Technology in User
Support Services
2020 - 2020

SKILLS

- Analytical problem solving
- Software debugging
- Computer programming
- Coding Excellence
- Conflict resolution
- Effective communication

LANGUAGE

English

ABOUT ME

Graduate specializing in full-stack web and mobile app development. I have a strong foundation in designing, building, testing, and maintaining both responsive websites and cross-platform applications. I'm proficient in JavaScript, Python, and C#, and experienced with frameworks and tools like Node.js, Flutter, and Android Studio. I take pride in writing clean, maintainable code and delivering user-focused digital solutions that are scalable and efficient. With strong problem-solving abilities, attention to detail, and a commitment to continuous learning, I'm eager to contribute to innovative projects and grow as a software engineer.

EXPERIENCE

Full Stack Mobile and Web Developer Volunteer 2024

EaziConnect Mobile

- Working closely with a small, agile development team.
- Participated in code reviews, testing, and debugging to ensure the quality and functionality of the mobile applications.

Front-end Developer Participant 2024

Nedma Hackathon: Mzansi Innovaters

- Created Persona that converts raw customer info to real business analytics for business to make more informed decisions and improve overall customer satisfaction. Adding a personal touch to client and business interactions

Back-end Developer Participant 2024

Mukuru Hackathon: SheCan

- Created a user interface that connects with an API endpoint, allowing customers to easily locate payout locations for collecting remittances. It provides a seamless search experience, letting users filter and refine their location queries according to specific parameters.
